

SendPro[®] Tablet: Creative expression options

FINAL

Creative expression

The smarter, simpler way to ship

Everyone could use a simpler, smarter way to ship. However, an unfamiliar piece of equipment doesn't necessarily make things easier. In fact, it might just do the opposite of what you need it to do.

Introducing the SendPro[®] Tablet.

The SendPro Tablet combines Samsung's cutting edge smart mobile technology with the unparalleled shipping knowledge of Pitney Bowes. The result: An easy-to-use tablet, digital scale and printer that lets anyone – even those who've never shipped before -- confidently weigh, compare prices, print and save every time.

Thank you.
